

## § 76.58

(e) Pursuant to § 76.64(f)(3), a local commercial broadcast television station that fails to make an election is deemed a must-carry station. A cable operator shall carry such a television station on the cable system channel number on which the local commercial television station is broadcast over the air, or on the channel on which it was carried on July 19, 1985, or on the channel on which it was carried on January 1, 1992. In the event that none of these specified channel positions is available due to a channel positioning request from a commercial television station affirmatively asserting its must-carry rights or such a request from a qualified local noncommercial educational station, the cable operator shall place the signal of such a television station on a channel of the cable system's choice, so long as that channel is included on the basic service tier.

[58 FR 17361, Apr. 2, 1993, as amended at 58 FR 40368, July 28, 1993; 59 FR 62345, Dec. 5, 1994]

### § 76.58 Notification.

(a) Effective April 2, 1993, a cable operator shall provide written notice to any broadcast television station at least 30 days prior to either deleting from carriage or repositioning that station. Such notification shall also be provided to subscribers of the cable system.

NOTE: No deletion or repositioning of a local commercial television station shall occur during a period in which major television ratings services measure the size of audiences of local television stations. For this purpose, such periods are the four national four-week ratings periods—generally including February, May, July and November—commonly known as audience sweeps.

(b) By May 3, 1993, a cable operator must notify all qualified NCE stations of its designated principal headend by certified mail.

(c) A cable operator shall provide written notice by certified mail to all stations carried on its system pursuant to the must-carry rules at least 60 days prior to any change in the designation of its principal headend, and shall include the new designation in its public file.

(d) By May 3, 1993, a cable operator must notify all local commercial and

## 47 CFR Ch. I (10–1–00 Edition)

NCE stations that may not be entitled to carriage because they either

(1) Fail to meet the standards for delivery of a good quality signal to the cable system's principal headend or

(2) May cause an increased copyright liability to the cable system.

(e) By June 2, 1993, a cable operator must send by certified mail a copy of a list of all broadcast television stations carried by its system and their channel positions to all local commercial and noncommercial television stations, including those not designated as must-carry stations and those not carried on the system.

[58 FR 17361, Apr. 2, 1993]

EFFECTIVE DATE NOTE: At 65 FR 53615, Sept. 5, 2000, § 76.58 was removed, effective Oct. 5, 2000.

### § 76.59 Modification of television markets.

(a) The Commission, following a written request from a broadcast station or a cable system, may deem that the television market of a particular commercial television broadcast station should include additional communities within its television market or exclude communities from such station's television market. In this respect, communities may be considered part of more than one television market.

(b) Such requests for modification of a television market shall be submitted in accordance with § 76.7, petitions for special relief, and shall include the following evidence:

(1) A map or maps illustrating the relevant community locations and geographic features, station transmitter sites, cable system headend locations, terrain features that would affect station reception, mileage between the community and the television station transmitter site, transportation routes and any other evidence contributing to the scope of the market.

(2) Grade B contour maps delineating the station's technical service area and showing the location of the cable system headends and communities in relation to the service areas.

NOTE TO PARAGRAPH (b)(2): Service area maps using Longley-Rice (version 1.2.2) propagation curves may also be included to support a technical service exhibit.
